## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-8 are allowed.

## **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance:

The limitation "wherein a portion of an outer surface of said second wall portion is substantially parallel to a portion of an outer surface of said first wall portion, the radial thickness of said first wall portion is less than the radial thickness of said second wall portion, and an inner surface of the supporting member has a substantially constant diameter along the entire length of the supporting member and wherein said first wall portion, said second wall portion and said one or more continuous round portions define a one-piece structure" is not fairly suggested or disclosed in the prior art in the context of rest of the limitations of this claim.

Applicant argued that "substantially constant" could not be replaced by "constant" since on microscopic level, the inner diameter of the supporting member can never be constant (last paragraph at page 2 of remarks dated 1/18/2005) which the examiner believed could make the claim distinguish over the prior art.

The examiner agrees.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
